

## **ALLOTMENT HOLDERS UPDATE**

As Central Government are slowly starting to lift restrictions and those in the most 'at risk' groups can take a break from shielding, we hope to see more and more allotment tenants visiting their plots.

Getting fresh air and exercise is paramount to our health and mental wellbeing but we do ask that everyone remains vigilant and safe. Please make sure you adhere to the Government's advice on social distancing and hygiene and **do not** congregate in groups of more than 6 people. Make sure to wash your hands regularly, especially after using the gate locks (on sites that have them).

Allotment invoices have been sent out asking tenants to pay their rents via BACS payments. Those who cannot do this can come into the council office in September when we are fully reopened, to pay in person by cash, card or cheque.

We would like to remind all allotment holders that cars are allowed on site but should only be parked in the designated areas. Please be mindful of all tenants when driving onto the allotment sites.

We ask that you keep up to date with the Government's advice and stay safe by following the advice, found here:
