#### **Public Participation**

The Chair invited two members of the public to speak before the Committee.

Both members of the public spoke regarding agenda item 10) *To comment on the Notice of Submission of Further Information (R3.0138/21)*.

The residents spoke in support of the HIF1 scheme, explaining that it would relieve traffic and congestions around Didcot, especially considering the new and existing developments throughout the town, as existing roads are at full capacity.

One of the residents spoke about agenda item 12) *To note the response letter to Cllr A Dearlove.*

The member of the public urged the Committee to revisit the previous correspondence and application, especially as a new parish is now overseeing the proposed area for the storage depot.

The second resident spoke regarding agenda items 15l) and 15m) *To consider as listed: planning applications: P23/S1571/A and P23/S1570/FUL.*

The resident expressed their thoughts regarding a new McDonalds restaurant being proposed in Didcot. They stated that whilst it was a shame to see a lack of independent or local businesses taking the vacant units, the proposed business would provide more jobs in the area, and that it was good to see empty units being used. The resident raised some concerns over the anti-social behaviour that could arise in the area, as experienced when Burger King opened nearby.

The Chair thanked the members of the public and resumed the meeting.

Standing orders were re-instated. Cllr D Rouane proposed to discuss agenda item 10 first.

All members agreed.

No objections	<a href="#">P23/S0911/HH</a>	Removal of existing conservatory and construction of single storey side extension facing Slade Road. <b>174 Wantage Road Didcot OX11 0AH</b>
The Town Council were extremely disappointed with the approval of this application by the Planning Inspectorate, given the value of this land both environmentally and in terms of biodiversity and what will now be lost. It is important that this development is linked by footpaths and cycle paths with existing developments and within the development itself. Given the value of the trees within the land of this application, the Committee	<a href="#">P22/S3532/RM</a>	All outstanding Reserved Matters (appearance, landscaping, layout and scale) for the erection of 150 residential dwellings with associated parking, landscaping, country park, equipped and informal open spaces and associated infrastructure and works pursuant to outline permission P20/S1577/O. <b>7c)</b>	<b>Application</b>	<a href="#">P22/S0491/O</a>	Land at Station Road, Lydalls Road & Haydon Road Didcot OX11 7JR
	<b>Amendment</b>	No. 2 - dated 16th May 2023	
	<b>Proposal</b>	Outline planning application (with all matters reserved except for access) for the demolition of existing structures and redevelopment for up to 144 dwellings, hard and soft landscaping, parking, and all associated engineering works. (As amended & amplified by documents received 12 December 2022 and 16 May 2023).	
	<b>DTC's previous response</b>	<p>Didcot Town Council's Planning and Development Committee continues their objection to application P22/S0491/O – Land at Station Road, Lydalls Road &amp; Haydon Road, Didcot, OX11 7JR and would like to submit a revised version of the previous comments.</p> <p>Didcot Town Council's Planning and Development Committee would like to object to application P22/S0491/O for the following reasons:</p>	

**• South Oxfordshire Local Plan**

The Committee noted that the development is contrary to STRAT 5 of the South Oxfordshire Local Plan as it does not fulfil “the need to minimise detrimental impacts on the amenity of future and/or adjoining occupiers.”

**• Impact on the surrounding area**

The proposed development on the west of the site seems overbearing and unneighbourly. The design references to railway architecture are appropriate for a site near the station. However, the railway workers’ housing on Station Road is more suitable as a reference than a Grade II listed engine shed, however historically significant. Block one’s (north site) 7 storey height has also been noted as unnecessarily tall. Blocks six and seven on the east of the site are also not in keeping with the size, shape, and form of the new and existing dwellings.

**• Potential for increase in traffic congestion**

Station Road and Hitchcock Way suffer increasing congestion and gridlocking on a regular basis due to the road being used as the main route into the Orchard Centre by visitors and deliveries. The Committee is concerned that this development will exacerbate the problem. There is little scope for the adjacent roads, Broadway for example, to be able to manage a substantial increase in traffic. The DAS acknowledges in the context of sustainable transport that Station Road is critical for bus circulation. Although it is outside the scope of this application, we do not want to see any measures taken to reduce the capacity of Station Road to carry traffic.

**• Access**

The Committee were extremely concerned regarding the access to the site, especially from Lydalls Road. Lydalls Road is currently a one-way street which houses a Nursery School, and the road is already extremely busy during pick up and drop off times. Members are concerned for the safety of the children during these times, especially as the pavements are inadequate. This is also in contrary to section 2v of STRAT 5 (see above).

**• Insufficient Parking**

The Committee noted that there is insufficient parking proposed for the development. Only a small percentage of residents will be able to park in allocated bays, which will mean an increase of vehicles battling for the small amount of on street parking in the immediate area. Didcot Town Council already receive numerous complaints regarding parking issues in the immediate vicinity on a regular basis. The proposed development will exacerbate this and will be in contrary to section 2v of STRAT 5, as it will have a “...detrimental impact[s] on the amenity of future and/or adjoining occupiers.” Despite statements in the application there is no evidence that the measures proposed will prevent indiscriminate parking. If the development is approved, we

		would like to see a condition imposed to restrict car ownership. The Committee noted that resident parking plans are to be introduced in the area of Haydon Road and Lydalls Road, but this will exclude residents on the new development.

Given the value of the trees within the land of this application, the Committee think it is important that developers take every step they can do to avoid any potential damage to, or loss of, the trees. In addition, the application includes plans for recreational footpaths, which are conflicting, and the included plans could result in a creation of a desire line.
